<http://www.Gateway400.org>

The Gateway/400 Group is a professional business organization made up of companies in the St. Louis Metropolitan area who are users of the IBM iSeries eServer (AS/400) computer systems.

Please join us to take advantage of these benefits and to support our programs:

- Best education value available.
- Keep current with the latest developments, tools, and trends for the iSeries.
- Great opportunity to share experience and ideas with other iSeries professionals in the area.
- Monthly luncheon meeting, September through May, with featured after lunch session on hot topics presented by special guest speakers, IBMers, or members of the group.

Currently luncheon meetings are on the second Thursday of each month at the Graphic Communication Banquet Facility, located at 105 Progress Parkway in Maryland Heights, MO 63043. The doors open at 11:30 AM and lunch is served promptly at noon. Reservations are required. Sessions begin at 1:00 pm and run for 1 to 1-1/2 hours with question and answer follow-up. Occasionally we have all day sessions covering core topics about Java, RPG and other areas of special interest.

All group meetings are sponsored by the membership itself through the assessment of dues. No additional sponsorship is allowed. No soliciting is allowed. If you have any questions, please contact a member of our Board of Directors. Their e-mail links can be found at [Gateway/400 Group contacts](#).

Whether you attend only a few or many meetings, please support our efforts with your membership so we may continue to offer great education to the iSeries community.
